

Friends feat. Olga (Olga Diveeva)

**To be good friends
This is a chance
In our world apart
To make new start
And help each other`s way
No need to say
Just be good friends**

**Be there for you
Someone with whom
You share the common mind
So far and wide
When you`re happy, sad
Or get upset
To be good friends**

**Many years
Many stairs
Follow dreams
And you dry my tears
Take word clear
Support my rear
I did mistakes
But you were here with me these days**

**To be good friends
This is a chance
In our world apart
To make new start
And help each other`s way
No need to say
Just be good friends
In our hands
Just be good friends
In our hands
Just be good friends..
This our chance
In our hands..**

**I`m OK
I`m the same
If you are with me..my friends..**

**Best of times
New describes
Full of tries
And amazing smiles
Your advice
Carrying eyes
I realized the reason why I`m not alone with you..**
